EXPERIENCE

PRACTICUM

Payment Source Inc | Port Moody | April 2022 - June 2022

- Developed an application that automatically updates the Github events (e.g. pull requests, merging branches) to the company's project management tool.
- Documented all codes and instructions of the app for further development
- Took charge of creating backend services, fixing bugs, and managing databases for the app

Projects

JJ-Store (E-commerce) | Feb 2023 | [Website](#) | [Github](#)

Ecommerce website built from scratch. Fetching data such as products, carts, and checkouts from Shopify CMS using Shopify Storefront API.

Chat GPT (Practicum) | Jan 2023 | [Website](#) | [Github](#)

Website demonstrates OpenAI's API service that performs a variety of natural language tasks, translates natural language to code, and creates images

Blog Website(Personal Project) | Dec 2022- Jan 2023 | [Website](#) | [Github](#)

Personal development for keeping a record of studies learned. The website has many useful posts for developing apps.

Tic Tac Toe (Personal Project) | Dec 2022 | [Website](#) | [Github](#)

Tic Tac Toe built using Socket.io. Players can play against another player or against a computer.

Gym Portfolio (Personal Project) | Oct 2022-Nov 2022 | [Website](#)

Full Stack development. This application has various exercises for targeted muscles. Users may find exercises that fit for their desired growth.

Gitmo (Practicum) | April 2022-June 2022

Team development for the client (Payment source Inc). Application updates events happening in Github repository to Basecamp (project management tool)
